Text

Precalculus (McGraw Hill)

Class Website

The class web site is located at <http://www.teh.k12.ca.us/Domain/8>. Select the “Teachers” button and select my name from the faculty listing. To find the class page select “Cerro Coso College Trigonometry” and the following information will be available:

- Class Syllabus
- Instructional Plans
- Homework Solutions
- Tests and Quizzes

Please note:

- The website will be updated throughout the semester based on class progress.

Grade status is available online through the Aeries software program with summaries posted in the classroom periodically throughout the semester.

Classroom Policies

- All school rules apply (check your planner for these rules).
- The teacher dismisses the class, not the bell.
- Tests and quizzes must be completed in pencil.

Grading Scale

100 – 87.5%	A	74.49 – 62.5%	C	49.99 – 0%	F
87.49 – 75.0%	B	62.49 – 50.0%	D		

Grading

- Scores will be recorded into Aeries (computer grade book) in three categories: participation, quizzes and tests on a 10/10/80 basis. This means participation is worth 10%, quizzes are worth 10% and tests are worth 80% of your semester grade.
 - Please note you should never earn anything less than 100% in the participation category. You receive the answers *before* your work is collected and extra credit is recorded in this category.
- Grades are posted in Aeries frequently. Promptly let me know if you believe there is an error.
- Please ask about your individual grades outside of class time.
- Any student with 15 unexcused absences during a semester will earn an “F” for the semester.

Makeup/Late Work

For excused absences you have 2 days for each missed day to make-up participation work (i.e. homework and warm-ups) for full credit. Late work is worth a maximum of half credit.

Tests and quizzes may be made up outside of class time throughout the semester however they must be completed before May 19th 2020.

You may not make up work, including tests and quizzes, for unexcused absences.

Tests and quizzes may be made up in room 914 before school, after school, or during lunch. It is your responsibility to coordinate the time.

I will not pursue you about your missing work, missed work can be identified on the grade postings.

Course Topics

Trigonometric Functions, Trigonometric Identities and Equations, Conic Sections and Parametric Equations, Vectors, Polar Numbers and Complex Numbers, Sequences and Series, and Limits and Derivatives. (Approximately corresponding to chapters 4, 5, 7, 8, 9, 10, and 12 of the text).

Important Dates:

Class begins: 1/6/2020

Last day to drop with a refund:

Last day to drop without a "W": 1/31/2020

Last day to drop with a "W": 4/2/2020

Semester Ends: 5/22/2020
